Related Categories: Adobe, ColdFusion, Flex, AIR

The UFC is red hot--and so are their online applications powered with ColdFusion! Join us tomorrow, Wednesday, July 8, 2009 at 11:00 AM PDT for a customer showcase where we'll hear all about how the UFC, the New England Patriots, and other sports giants use ColdFusion to power high-traffic applications. The eSeminar is called Ultimate ColdFusion: High Performance, Scalability and Features and you can find more information and register for it at <http://www.adobe.com/cfusion/event/index.cfm?event=detail&id=1345643>.

Note: if you are unable to attend or if you read this post after the eSeminar is over, be sure to **check the Adobe ColdFusion OnDemand eSeminars listing** to see if we have posted the recording there (no promises as to how quickly, but hopefully we will get the recording posted there when it is available).
