Related Categories: Adobe, ColdFusion, Flex, MAX

Adobe MAX 2008 figures to be the best MAX **ever**. But did you know that there are a **ton** of great ColdFusion sessions on tap? I don't know specifics, but I know there are more sessions planned this year than in at least the recent past. So...hopefully you have heard only good things about Adobe MAX, but if you instead heard something about there not being enough ColdFusion content, put that thought to rest! But don't just take my word for it, check out the **Adobe MAX 2008 North America Session Locator** and see for yourself (as **Charlie Arehart** pointed out to me, it's important to notice that the tool includes a Product selection and by choosing "ColdFusion" you will see over **30** distinct sessions, not including repeats, pertaining to ColdFusion)! Then check out all the great information and register on **the Adobe MAX 2008 North America website**. Speaking of registration: for the best possible price, you need a special code--and I may be able to provide one; contact me for more information.
